

CO2 Neutral label certificate

SILVER LABEL - SILVER LEVEL

Client reference: N° 24/035
Certification start date: 13/02/2024
Certification end date: 12/02/2025

CO2logic certifies that **Sivafrost BVBA** has calculated its **company** carbon footprint, set up a concrete reduction plan and offset remaining emissions (**325 tCO2**) by supporting certified climate projects.

The operational scope of work covers Scope 1, Scope 2 and partial Scope 3 (fuel and energy related activities not included in scopes 1 and 2, waste generated by operations, business travel and employee commuting) emissions for **FY 2022**.

Sivafrost BVBA ambition is to reduce its **company** emissions as follows:

- to reduce its **scope 1 and 2 emissions by 42% by 2030** in comparison with 2021, and its **scope 3 emissions by 25%** over the same time period.
- to **yearly offset remaining emissions** through certified carbon credits.

Every CO2 Neutral label is reviewed and validated by Vinçotte, an independent international certifying authority. Through an in-depth audit, Vinçotte controls the implementation of the CO2logic approach: calculate, reduce and offset CO2 emissions.

All information related to the CO2logic approach and the certification process can be consulted on our dedicated website www.co2-neutral-label.org and all the information related to this climate journey is made available through the individual QR code present on the label:
